

SOUTH FERRIBY LIAISON GROUP

MEETING MINUTES FOR 28th JULY 2017

Present : S. Haddon (South Ferriby Parish Councillor)
A.Ward (North Lincolnshire Council Officer)
J. Peters (CEMEX South Ferriby Plant Director)
M. Roe (CEMEX Logistics Manager)
K. Groombridge (CEMEX South Ferriby Environmental Manager)

Apologies : D. Mouncey (South Ferriby Parish Councillor)
N. Cecil - Purvis (South Ferriby Parish Councillor)

Matters Arising: There were no matters arising following the last meeting.
The minutes of the last meeting were accepted.

CEMEX: JP reported that since the last meeting there had been no accidents or lost time injuries. Kiln 3 had undergone a week long outage for repairs and it was expected to be operational until October 2017 when it would be stood until early 2018.

Since the last meeting the plant received one complaint regarding a plastics smell in the village. Upon investigation the smell could not be traced to any activity on site. No schedule 5 reports had been submitted to the Environment Agency since the last meeting.

JP went on to talk about how the use of the current coal had been affecting the level of alternative fuels burnt in the kilns.

MR reported that the tanker fleet had been reduced by 1 vehicle with 19 vehicles operating out of the plant. He went on to report that a survey of our tanker movements showed that 1 in 8 vehicles leaving the plant turned right towards the village and that all drivers have been advised to turn off their beacons when they leave the plant.

SH asked MR if there was plans to improve communications with tanker drivers when they were on route especially as the Environment Agency proposal for flooding involved the fitting of flood gates across the A1077. MR said that his department would ring contract haulier companies as required and they have terminals that can receive messages. CEMEX's own drivers have SATNAV systems that can read text messages.

Environment Agency: Nothing to add

North Lincolnshire Councilors: Nothing to add

North Lincolnshire Council Officers: Since the last meeting all air quality objectives have been complied with and there have been no exceedances since the last meeting.

Winteringham Parish Council: Nothing to add

South Ferriby Parish Council: Nothing raised

Any Other Business: Nothing raised

Date and Time of Next Meeting: 3rd November 2017 in the Humber room at the Ropewalk in Barton.

26th January 2018 in the Humber room at the Ropewalk in Barton.
