

South Ferriby Parish Council

Footpath by temporary flood defences

We recognise how challenging the temporary footpath is for some residents wishing to walk between the Sluice and the main village and continue to press the relevant authorities for improvements. One important safety factor is that pedestrians can be seen and we decided at the last Parish Council meeting to make High Viz vests available to residents. These have thoughtfully been donated by CEMEX UK Ltd.

South Ferriby Post Office has kindly agreed to hold a supply of vests so please call in the shop if you would like one for yourself or other family members. They come in a variety of sizes. When worn over a coat you will need a larger size than usual. A Medium is suitable for a child age 11 and over. If anyone would like a smaller vest for a younger child please contact Cllr Sara Haddon on 07808 958957 and we will make arrangements for one to be purchased. We have an initial supply of 28 vests but CEMEX have generously agreed to make more available if needed.
